Date	Version	Description	Author
26/05/2022	1.0	Introduction, Problem Statement	Nikhil Barjatia
28/05/2022	1.1	Year wise FDI to be added	Nikhil Barjatia

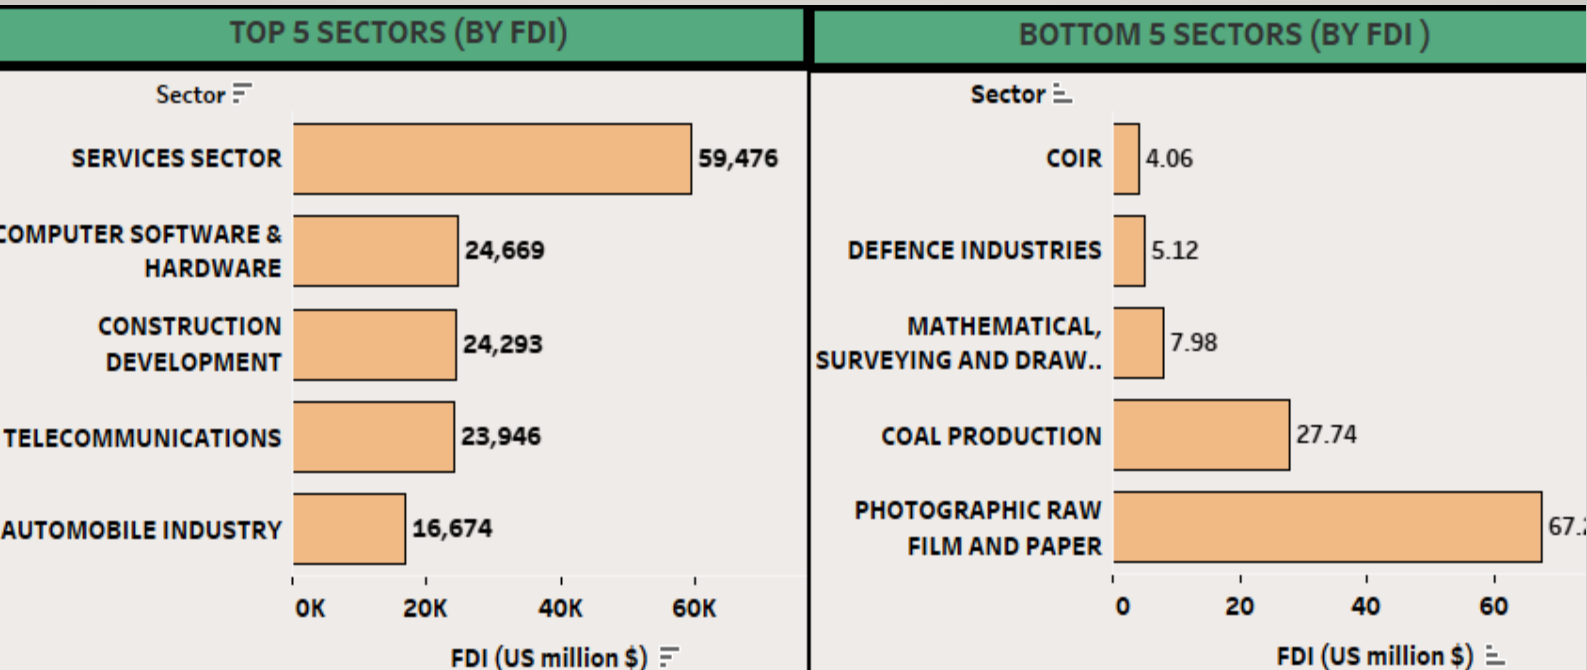

We Performed Exploratory Data Analysis on Jupyter Notebook and then created a Tableau Dash board .

1. How was Sector-wise FDI?

- The above graph depicts the sector having the FDI inflow in India. The report shows that the Service sector has an FDI inflow of \$59.4764k Computer Software followed by the Construction development, Telecommunication, Automobile Industry sector having an FDI Inflow of \$24.669k, \$24.29k, \$23.94k, \$16.67k.

2. Which were the Best performing and Worst performing Sectors?

- Among the Top 5 sector ,Service sector has the highest FDI inflow followed by the Computer Software and Hardware, Construction development , Telecommunication and Automobile Industry respectively.
- Among Bottom 5 Sectors COIR has the lowest FDI Inflow followed by Defence Industries, (Mathematical, surveying and Drawing instruments), Coal Production, Photographic raw film and paper sector respectively .

3. How was the Year-wise Growth in Foreign Direct Investment?

FOREIGN DIRECT INVESTMENT YOY

- India's total amount of FDI inflow during 17 years, i.e. 2000 to 2017. The FDI inflow from 2000-2001 i.e. \$2,379 million in 2001-02 it was \$4,028 million. It shows a good result in the FDI inflows in India. A little bit of ups and downs in FDI inflows up to 2005-06 but after that great hike in the year 2007-08 i.e. \$24,575 million as compared to earlier years.
- In 2008-2009 there was a huge investment in FDI in \$31,396 million. But then there was a downfall in the inflow of FDI in two consecutive years 2009-2010 and 2010-2011, with figures \$25,834 million and \$21,383 million respectively. The reason for such a big downfall was the US housing bubble burst where the whole world faced economic crisis.
- We can find from the year 2014-2015 the inflow of FDI increased by a significant amount. One of the reasons for such growth is the rise of a single party government with a strong mandate. In 2021-2022 India has recorded the "highest ever" annual FDI inflow of \$83.57 billion and is expected to attract \$100 billion FDI in 2022-2023.
